### **DETAILED ACTION**

1. Receipt is acknowledged of the amendment filed November 23, 2005.

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gerald P. Parsons (24486) on 2/1/2006. The examiners amendment was required in order to remove potential rejections.

The application has been amended as follows:

Claim 14: (Currently amended) A memory card system, comprising: an enclosed electronic circuit card having first and second sets of electrical contacts positioned on outside surface area thereof with different contact patterns, the first and second sets of electrical contacts being spaced apart a distance in one direction along the card, a re-programmable non-volatile memory system within the card and operably connected to transfer data between the memory and outside of the card through either of the first or second sets of contacts without use of the other, and a sleeve surrounding the card in a manner to be slid by hand along a linear path relative to the card between a first position either exposing the first set of contacts while overlying the second set of contacts and a second position exposing the second set of contacts while covering the first set of contacts, wherein the sleeve and the card have relative dimensions so that the card fits within a

footprint of the sleeve when the sleeve is in the first position, wherein the sleeve includes a plurality of openings in a wall of the sleeve that are arranged and positioned to expose the first set of contacts therethrough when the sleeve is in the first position.

Claim 15: (Canceled)

Claim 17: (Currently amended) The memory system of claim 14, wherein the sleeve has an open portion of an end through which the card extends to expose the second set of contacts outside the footprint of the sleeve when the sleeve is in the second position.

Claim 36: (Canceled)

Claim 37: (Canceled)

Claim 38: (Canceled)

***Allowable Subject Matter***

3. Claims 14, 16-35, and 39-54 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 14, 25, 39, 41, 42, and 46, the prior art or record, taken alone or in combination, fails to teach or fairly suggest at least a memory card system comprising: an enclosed electronic circuit card having first and second sets of electrical contacts positioned on outside surface area thereof with different contact patterns, the first and second sets of electrical contacts being spaced apart a distance in one direction along the card, a re-programmable non-volatile memory system within the card and operably connected to transfer data between the memory and outside of the card through either of the first or second sets of contacts without use of the other, and a sleeve surrounding the card in a manner to be slid by hand along a linear path

Art Unit: 2876

relative to the card between a first position either exposing the first set of contacts while overlying the second set of contacts or covering all of the card within the sleeve under at least one wall and second position exposing the second sets of contacts while covering the first set of contacts, wherein the sleeve and the card have relative dimensions so that the card fits within a footprint of the sleeve when the sleeve is in the first position, and a plurality of opening through the wall of the sleeve in positions that expose the second set of contacts therethrough when the card is in the first position, and wherein the first set of contacts is exposed through the openings of the sleeve wall when the card is in the first position and covered by the sleeve when the card is in the second position.

With respect to claims 16-24, 26-35, 40, and 43-45, claims are allowed for being dependent on the allowed independent claims.

### ***Conclusion***

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tae W. Kim whose telephone number is (571)272-5971. The examiner can normally be reached on Mon-Fri 7AM-4:30PM.
